GRACE PERIOD & LAPSE

We understand that sometimes due to unavoidable circumstances you might find it difficult to pay your premiums on time. Don’t worry, we got you covered!

We allow a grace period of 30 days for payment of premium for non-monthly modes and 15 days for monthly mode. Moreover, in case if the life assured dies during this grace period and the premium for that period is still due, we still provide you the life cover and the death benefit shall be paid to the Nominee(s)/Beneficiary(ies) after deducting the unpaid premium and all other premiums falling due before the next policy anniversary.
**LAPSE**

To get the maximum benefits out of the plan, we don't want you to lapse the policy and request you to pay your premiums as & when due. If the premium due remains unpaid at the expiry of grace period before the first two years’ premium have been paid in full, the policy will lapse without any benefit being payable.

However, if the premium due remains unpaid at the expiry of grace period after the first two years’ premium have been paid in full, the policy status will change to paid up. This paid up policy will then continue with paid up benefits.

**REVIVAL PERIOD**

We also provide you the option of restoring the full benefits in case of both a lapsed or a paid up policy. A policy can be revived anytime within two years from the date of first unpaid premium as per the company's Board approved underwriting policy by paying all outstanding premiums (from date of first unpaid premium to date of revival) together with interest at a rate as approved by IRDAI. The revival interest rate currently is 8% pa. The revival interest rate shall be changed in future only after prior approval from IRDAI.

**PAID UP VALUE**

As mentioned above in the Lapse section, even if you discontinue paying your premiums but have paid at least two years' premium in full, your policy will get converted into a paid up policy. Under a paid-up policy all your benefits will reduce proportionately but policy benefits will continue to be paid when they fall due as mentioned above in the Benefits section.

The proportionate reduction will be calculated as follows-

**Death Benefit**

In case of the death of the life assured, “Paid up Death Sum Assured” along with the accrued bonus* will be paid to the nominee(s) or beneficiary (ies) under the paid up policy.

---

*Bonus subject to policy terms and conditions.
• **Paid up Death Sum Assured = \( \frac{\text{Total premiums paid}}{\text{Total premiums payable}} \times \text{Death Sum Assured} \)**

Under the “Income plus and Lump sum option”, in case of death of the life assured during the last five years under paid up policy, the Paid up Death Sum Assured shall be paid. Income benefits that have already been paid shall not be deducted from the death proceeds.

**Maturity Benefit**

For the **Lump sum Option**, on survival of the life assured to maturity you will get "Paid up Guaranteed Maturity Sum Assured" along with accrued bonus* and terminal bonus, if any, on the date of maturity under your paid up policy.

For the Income plus **Lump sum Option**, on survival of the life assured to the commencement of income benefits you will get 10% of the "Paid up Guaranteed Maturity Sum Assured" at the end of each year over the last five policy years under your paid up policy. On survival to maturity, you will get 50% of the “Paid up Guaranteed Maturity Sum Assured" along with the accrued bonus* under your paid up policy.

• **Paid up Guaranteed Maturity Sum Assured = \( \frac{\text{Total premiums paid}}{\text{Total premiums payable}} \times \text{Guaranteed Maturity Sum Assured} \)**

*Bonus (if any), will be accrued while the policy is in force. No further bonus will be accrued once the policy becomes paid up.

**Extended Cover Benefit**

If you have opted for Extended Cover Benefit, in case of the death of the life assured during the extended cover period, “Paid up Sum Assured” will be paid to the nominee(s) or beneficiary (ies) under the paid up policy. On survival of the life assured to the date on which he/she attains the age of 80 years, “Paid up Sum Assured” will be paid under the paid up policy.

• **Paid up Sum Assured = \( \frac{\text{Total premiums paid}}{\text{Total premiums payable}} \times \text{Sum Assured} \)**

- Bonus (if any), will be accrued while the policy is in force. No further bonus will be accrued once the policy becomes paid up.
You have an option to surrender the policy before its maturity after premiums have been paid for at least 2 full years.

However, as you would have bought this policy with specific needs and long term goals we would highly recommend you to continue it for the full term to reap the full benefits. In case of any financial emergency you may take a loan against your policy instead of surrendering the policy.

On surrendering the policy, you will receive Surrender Value, which is higher of the Special Surrender Value (SSV) and the Guaranteed Surrender Value (GSV)

**Guaranteed surrender value (GSV):** The sample Guaranteed Surrender Values expressed as a percentage of total premiums paid and accrued bonus are as shown in the table below:

*Note: Outstanding Term = Policy Term – Completed Years -1*
**Special Surrender Value (SSV):**

The Special Surrender Value will depend on actual experience and prevailing and expected economic conditions.

---

**LOAN**

In situations where you are in desperate need of money for short term, you can take Policy Loan.

- **Lump Sum Option,**
  
The maximum loan allowable is 80% of surrender value. Any outstanding loan with accrued interest will be recovered from policy proceeds before any benefit is paid on the policy.

- **Income plus Lump Sum option,**

  During the premium paying term, the maximum loan allowed is 80% of the surrender value. If loan is availed after premium paying term, the maximum loan allowed is 60% of the surrender value. If there is default in the interest payment on loan or repayment of outstanding loan amount, then income benefits due or any other amount payable under the policy shall be adjusted against the outstanding loan interest and outstanding loan amount.

However, you can take lower amount of loan than the available limit. The loan interest rate is fixed at 9% compounding half yearly. The interest on loan shall be paid by the policyholder on half yearly basis.

Any change in loan interest rate will be done only after the prior approval of the Authority.

The Company will ensure that no policy will be cancelled due to non-repayment of loans.
Minor Lives
The life assured whose age is less than 18 years (age last birthday) at date of commencement of policy shall be considered as minors. In case of minor lives assured, the risk cover starts from the 1st policy anniversary. In case of death of the minor life assured during the first policy year, the premium paid will be refunded.

The policy will be vested in the name of the Minor life assured on the policy anniversary immediately following his/her completion of 18 years of age.

If the Life Assured commits suicide for any reason, while sane or insane, within one year from the date of revival of the policy, an amount which is higher of 80% of the premiums paid till the date of death or the surrender value, if any, shall be paid to the Nominee(s) / Beneficiary(ies).

Free Look Period
The policy holder has a period of 15 days from the date of receipt of the policy document to review the terms and conditions of the policy and where the insured disagrees to any of those terms or conditions, he has the option to return the policy stating the reasons for his objection, when he shall be entitled to a refund of the premium paid, subject only to a deduction of a proportionate risk premium for the period on cover and the expenses incurred by the Company on medical examination of the proposer, if any and stamp duty charges.

A request received by the Company for free look cancellation of the policy shall be processed and premium shall be refunded within 15 days of receipt of the request.

For any delay, the Company shall pay penal interest at a rate, which is 2% above bank rate from the date of request or last necessary document if any whichever is later, from the insured/claimant as stated above.

Currently, for financial year 2019–20, the penal interest rate is fixed at 8% p.a.

Tax Benefits
Tax benefits may be available as per prevailing tax laws. Tax benefits are subject to changes according to the tax laws from time to time; please consult your tax advisor for details.

GST

Provided that acceptance by an insurance agent of commission in connection with a policy of life insurance taken out by himself on his own life shall not be deemed to be acceptance of a rebate of premium within the meaning of this sub-section if at the time of such acceptance the insurance agent satisfies the prescribed conditions establishing that he is a bonafide insurance agent employed by the insurer.

Any person making default in complying with the provisions of this section shall be liable for penalty which may extend to ten lakh rupees.

Section 45 of the Insurance Act, 1938 as amended from time to time –

(1) No policy of life insurance shall be called in question on any ground whatsoever after the expiry of three years from the date of the policy, i.e. from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy, whichever is later.

(2) A policy of life insurance may be called in question at any time within three years from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy, whichever is later, on the ground of fraud.

(3) Not withstanding anything contained in sub-section (2), no insurer shall repudiate a life insurance policy on the ground of fraud if the insured can prove that the mis-statement of or suppression of a material fact was true to the best of his knowledge and belief or that there was no deliberate intention to suppress the fact or that such mis-statement of or suppression of a material fact are within the knowledge of the insurer:

Provided that in case of fraud, the onus of disproving lies upon the beneficiaries, in case the policy holder is not alive.

A policy of life insurance may be called in question at any time within three years from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy, whichever is later, on the ground that any statement of or suppression of a fact material to the expectancy of the life of the insured was incorrectly made in the proposal or other document on the basis of which the policy was issued or revived or rider issued:

Provided that the insurer shall have to communicate in writing to the insured or the legal representatives or nominees or assignees of the insured the grounds and materials on which such decision to repudiate the policy of life insurance is based:

Provided further that in case of repudiation of the policy on the ground of misstatement or suppression of a material fact, and not on the ground of fraud, the premiums collected on the policy till the date of repudiation shall be paid to the insured or the legal representatives or nominees or assignees of the insured within a period of ninety days from the date of such repudiation.

Nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.
